

# Independent Education Consultant

---

Our growing consulting firm is looking for candidates with extensive training and experience in tiered models of prevention and intervention to serve as independent contractors to provide professional development to educators and schools in the Chicago area. Specific responsibilities/qualifications are outlined below:

## DUTIES AND RESPONSIBILITIES:

- 1) Provide training and coaching relevant to the use of early literacy and math assessments to aid in instructional planning and student intervention.
- 2) Collaborate in the development of training curricula, materials, and products to support the needs of school teams.

## QUALIFICATIONS:

- 1) Minimum of Master's degree in School Psychology, Education, or Special Education.
- 2) Demonstrated working knowledge and use of formative assessment techniques.
- 3) History of successful work in educational settings or related environments.
- 4) Demonstration of skills communicating with school administrators, community agencies, teachers, and/or state department personnel is necessary.
- 5) Demonstration of effective presentation and facilitation skills is essential.
- 6) Must be able to travel to school sites around the country as needed.
